Re-development of:

Nuth Station

Socially responsible

Programme

- Introduction
- Analysis
- Overall concept
- Station concept
- Overall participation
- Conclusions
- Questions

Observations

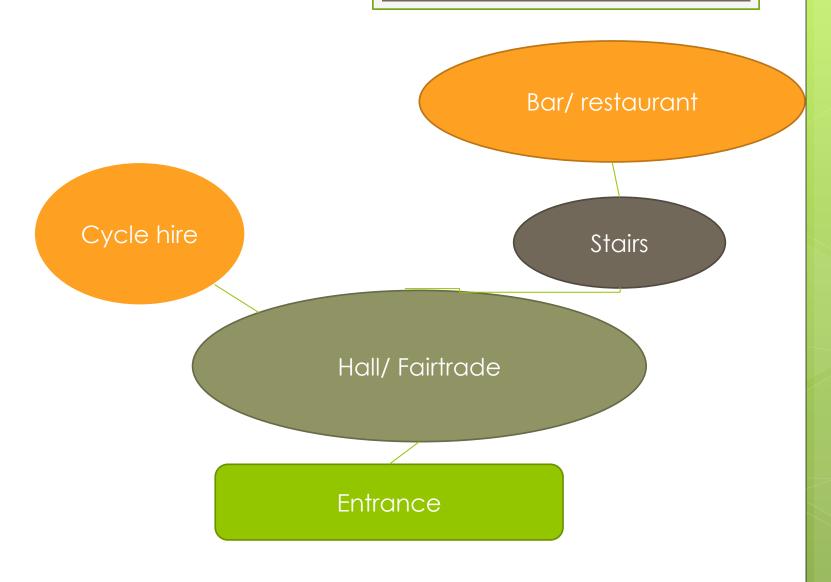

Weaknesses:

- Lack of signs for the shops
- Connections with the bus station
- Building not aesthethically pleasing
- Lack of information
- Visability
- Social safety (cameras, Lighting)
- Accessibility for wheelchairs
- No Toilets
- Decreasing population (0.46% every year)

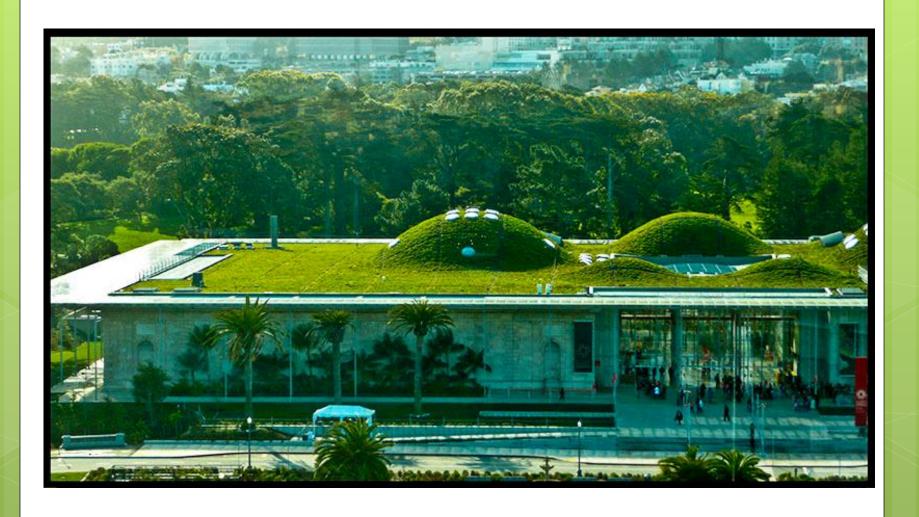

Strengths:

- Ecological surroundings
- Future bypass
- Optimal site location
- Connecting rail links to major cities
- Majority of travellers arrive by foot or bike

Overall Concept

Station concept

Design

- Grass roof
- Solar panels
- Utilising rain water for toilets
- Bridge
- Water moat

Facilities

- Fairtrade shop and café
- Integration of mining history
- Cycle hire
- Bus station
- Toilets

Local Engagement

- Plantation of flowers
- Art & sculptures by local artists
- Local children's art
- Eco tickets

Promotion

- Face painting
- Reward schemes
- Voice winner signatures and performance
- Signatures by proffessional football players
- Speed dating on the train
- Pop up sale

Conclusion

Questions?
