

# Community Stations – food for thought

Prof. Paul Salveson

University of Huddersfield

# What are stations for?

Imagine....  
a petrol station that only sold petrol!

# But we're learning!

# Corner shop economics? And courtesy

# The classic station

# Is it a local bakery?

# A warm welcome

# Stations need nurturing

# Community power!

# Convivial spaces

# Get married...at the station

# A place for creativity

# The incredible edible station

# A special place: station at the heart

# Cafe society

# The coffee station

What will the station of the future be like?

# Basic.....

Or integrated with village life

# It's in your hands!
